317 PRISON FIRE DEATH TOLL

Six Marion Prisoners in List—State Launches Probe

BURIAL PLANS STARTED FOR COUNTY MEN

One Victim To Be Returned Here Today; Funeral Arrangements Completed Later

FIVE FROM NEARBY TERRITORY DIE

Man Convicted of C., D. & M. Robbery Several Years Ago Is Among Casualties

AMID the confusion and grim despair of the prison fire plans were being made today for the burial of some of the six men from Marion county who perished in the blaze. The remains of one man was to be returned here today. Others probably will be brought later.

The six from Marion county who perished in the conflagration are:

Frank Z. Sams, Edward Upchurch, Fred Ames, Lerano Salinas, Paul Gibson and Harry E. Duncan.

With the official list of identified dead rapidly nearing completion it was not expected at noon today that additional Marion county men would be numbered among the victims.

At least five other victims were from counties bordering on Marion county.

Those already identified are:

Richard Harper, Union county; John Longacre, Crawford county, Dale W. Harmon, Union county, Everett Deem, Delaware county, and John E. Bowman, of Delaware county. Fred Ames, although a resident of Marion, was convicted and sentenced to the penitentiary from Wyandot county.

Relatives of the Marion victims will plan funerals as soon as definite word is received from the penitentiary officials as to when the bodies may be removed from the state fair grounds.

Sister Makes Arrangements

Mrs. Lota Miller, North State st., sister of Paul Gibson, had completed arrangements this morning for the body to be brought to Marion this afternoon. The C. E. Curtis Co. car will bring the body here.

The body of Fred Ames, whose mother lived this winter at her home, 627 Fish av., will be brought to Marion Friday morning according to his sister, Mrs. Paul Prosser, Avondale ave. Ames, 25, had served nearly two years of his term. With three other persons he was sentenced for beating and robbing an aged couple north of the Marion county line in Wyandot county.

Gibson was admitted to the penitentiary Jan. 16, 1928 to serve seven years for burglary of an inhabited dwelling.

Mrs. Edward Upchurch, wife of one of the Marion county victims, heard the news of her husband's fate [illegible] last night and left immediately [illegible] Columbus. Funeral ar[illegible]

UPCHURCH CHOSE PEN, DIES IN FIRE

Edward Upchurch, one of the Marion county victims of the state penitentiary fire last night, might be living today [illegible] had he chosen to go to the Mansfield reformatory instead of the penitentiary.

When he changed his plea to guilty on a charge of breaking into a box car, Common Pleas Judge George B. [illegible] on Mar. [illegible] offered him his choice of the [illegible] penitentiary or the reformatory and Upchurch asked to be sent to the former contrary to the advice of his attorney, Louis E. Myers.

OFFICIALS AT LOGGERHEADS

Chester Unseated as Inquiry Head; Demands Warden's Suspension.

BULLETIN

COLUMBUS, April 22—State Welfare Director Hal H. Griswold today admitted that he is considering the suspension of Warden P. E. Thomas pending a full investigation of the appalling Ohio penitentiary fire tragedy last night, resulting in the death of 317 prisoners.

"Who was in charge at the prison?" Chester asked.

"I was in charge!" the warden replied.

"But you gave orders to the guards?"

"No," Warden Thomas said. "They are supposed to know what to do."

Trusties and other prisoners released from the blazing cell block at Ohio penitentiary responded to the appeals of the burned and injured fellow prisoners quickly. They assisted in the work of carrying them to safety. The grimmer task of removing bodies of the scores of dead to the gates of the prison where they were picked up by the Ohio National Guard transport also was theirs. Bodies of the victims were speeded to the horticulture building at the Ohio State Fairgrounds for embalming.

"WHERE WERE KEYS?" GRISWOLD DEMANDS

Welfare Director Seeks To Fix Responsibility For Prison Holocaust.

COLUMBUS, O., April 22.—Where were the keys?

Satisfied that the answer to that question will fix the responsibility for the prison holocaust at the Ohio State penitentiary here yesterday evening, State Welfare Director Hal H. Griswold today continued the commonwealth's official investigation into the greatest prison fire in the history of the nation.

Hardly had the terrified screams of the injured and dying ceased than Director Griswold was on the scene demanding to know why the prisoners had not been released from their cells when the fire grew serious.

"Where were the keys to those cells?" demanded Griswold.

Admit Didn't Know

And one after another six witnesses paraded before him and told [illegible] what became of the keys [illegible] to the trapped convicts in the blazing inferno of tiers of cells. The witnesses admitted they didn't know.

The keys to the cells, it was explained, were kept in the guard room more than 200 yards across the prison court yard from the burning cell block. They disappeared quickly after the fire. None of the witnesses could account for them. There were 12 keys. Only a few were accounted for.

But then grimly enough there's no use for them—now.

Warden P. E. Thomas of the penitentiary in a statement to the director declared that he was in his residence in the front of the prison, when he heard the cry "Fire!"

"I rushed to the guard room," he said. "There I turned in a second fire alarm. After calling to a guard to get the keys I ran outside the prison where I posted guards to case a concentrated effort to escape was made."

"Who was that guard?" asked Griswold.

"I don't know," replied the warden.

Tells Similar Story

Sergeant Edward Jenkins of the guards told an almost similar story. He too said he had turned in a second alarm and after running to the scene had returned to the guard room and then went outside the walls to see that guards were around the prison.

"What were your instructions in case of such a fire?" queried the welfare director.

"I didn't have any; we don't have fires so often," was the reply.

James C. Woodard, deputy warden, next assumed the witness chair which in this instance chanced to be a large upholstered chair in the lux[illegible]

Convict Carries Brother from Fire—but Too Late

COLUMBUS, O., April 22.—"For I am my brother's keeper."

Putting [illegible] English on the age-old Biblical saying, John Anderson Greenfield, serving 15 years for cutting with intent to kill, dreaded the day he would have to face his mother as he sat on a cot in the penitentiary hospital today and nursed his burns.

For Robert is dead. And Robert was John's "kid" brother.

"The little boy, who followed me into fights, who fought because I told him it was our only chance—Robert," sobbed Anderson and the tears made his burns hurt all the more.

Death Provides [illegible]

John went into the raging prison fire after good-old Bob last night. But he was too late.

[illegible] did he go into that veritable hell of flames and [illegible] did he [illegible] to [illegible]

Then he realized, that somewhere in there was Robert—Robert the boy who had followed him from the straight and narrow—Robert who worshipped him as a boy and Robert who had come for the same offense to live in those great gray walls.

Tying his handkerchief about his face John went back—back for "Bob."

Resorts to Prayer

"I prayed to the Lord and I haven't prayed so often, to save Bob until I could get to him. Along the cell block I made my way. And I found him.

Tossing his brother over his shoulder, John made his way to the door.

SEEKS ACTION BY ASSEMBLY

Senator To Demand Special Legislative Session For Prison Remedy.

By the Associated Press

CLEVELAND, April 22.—An immediate special session of the general assembly will be sought by State Senator George H. Bender of Cleveland to consider Ohio's overcrowded prison conditions.

Bender declared "what we need is permanent relief to this whole state prison mess," in commenting on the disaster at Columbus last night.

He proposed that the state sell the present prison site in the heart of Columbus and rebuild on the property it now owns at the London prison farm. "Not only could a larger institution be built," Bender said, "but the convicts would be out in the country away from the [illegible] of the industrial section of Columbus."

Says Prison Fire More Horrible Than War

COLUMBUS, April 22.—"I saw some terrible things during the World war but the penitentiary fire was the most horrible thing I have ever witnessed."

Major J. H. Allen of the Salvation Army, who spent the night working with the victims today had this to say of the fire at the pen.

The major, a veteran of all sorts of catastrophes, was with the prisoners during the night helping to care for the injured and directing the serving of sandwiches and coffee.

BOARD NAMED BY GOVERNOR SEEKS FACTS

Wants to Know Why Locked Prisoners Were Not Freed to Escape Death

GUARD OUSTED PENDING INQUIRY

Tales of Heroism and Costly Hesitancy Told at Hearing of State Commission

COLUMBUS, O., April 22—(AP)—Tales of heroism on one hand and costly hesitancy on the other were told today within the grey grim walls of the Ohio penitentiary where last night 317 convicts locked in their cells were burned to death and suffocated in one of the most life destroying fires in history. And as the guards and inmates of the prison recounted the vivid details of the disaster, an official state commission appointed by Governor Cooper sought to learn what caused the blaze and why the locked prisoners were not liberated in time to escape the horrible death.

The most startling bit of testimony adduced came from the warden. He said guards intent upon rescuing the trapped men had been refused entrance to the burning ranges by Guard Thomas Watkinson and that they were forced to take a key from him before they could open any of the cell doors. The heat drove them back before they finished the task, and 317 convicts died in the inferno of barred cells.

Guard Watkinson Is Suspended

Murmurings last night against Watkinson, a guard in the ill fated tier brought his suspension today by Warden Preston E. Thomas. Watkinson, one of two guards on duty in the section where death took its greatest toll, was suspended pending investigation.

Identity of 276 Is Established

In the horticultural building at the state fairgrounds, scores of undertakers worked untiringly to prepare the victims for burial. The identity of 276 of the ill fated convicts had been established. The others trapped in the firebound cells, were so badly burned that identification was almost impossible.

Convict heroes and prison guard heroes were told of time and again today by the hundreds of inmates who escaped the fire fiend. These men loosed in the big prison yard when the flames broke out in the northwest cell blocks, told of fellow convicts and of guards who, mindless of their own safety, dashed into the hot smoke filled tiers in valiant efforts to free the trapped men.

Outstanding Heroes

Prisoners and guards agreed today that the two outstanding heroes of the tragic disaster were guards [illegible] Little and W. C. Baldwin. These men braving the killing smoke and heat went into the blazing tiers and liberated convicts until they were overcome, to be rescued by convicts participating in the rescue work.

"Big Jim" Marion was another whose praises were sung. The former Cleveland bank robber unhesitatingly flirted with death as he dashed in and out of the flaming building, carrying an unconscious fellow-prisoner. And Big Jim kept up his heroic struggle against the odds until he fell a victim to smoke and heat. He was revived and today was well on the road to recovery.

Other unnamed heroes, whites and negroes, all clad in prison garb, were in the ranks of the [illegible] These [illegible] braved death [illegible] and again, carrying the dead [illegible] dying from the oven-like cells.

The [illegible] order [illegible] at [illegible] Soldiers were on guard [illegible] the walls and [illegible] of the barriers. All was order within the penitentiary. A flurry of excitement came when fire engines were rushed through the gates to fight a blaze in the smouldering ruins. During the morning Governor Cooper and his committee on inquiry visited the spot where the fire started, and then went into the block which last night was the tomb of many men.

The penitentiary housed 4,300 convicts, some 2,200 above the capacity for which it was intended, when the fire, [illegible] of [illegible] and [illegible] by a stiff wind [illegible] through the upper tiers of the [illegible] block spreading death and destruction in its wake.

Bodies of Dead Fill Fairgrounds Building

By The Associated Press

COLUMBUS O April 22—Known only by their numbers the bodies of 317 convicts smoked and charred by the most disastrous fire in the history of penitentiaries lay in the improvised morgue in the horticulture building at the Ohio State fairgrounds today.

Shortly after dawn between 70 and 80 embalmers came into the structure and began work rapidly upon the forms that had once been men. Working under handicaps they systematically arranged the corpses, temporarily as far as they were concerned nameless.

Of the dead 278 have been identified and the bodies of these will be turned over to the [illegible] who swarmed about the entrance to the structure now housing the dead. [illegible] of the forms are nameless [illegible] in and out of the morgue.

The embalmers began their work at [illegible] a m. They worked with [illegible] of expert physicians on an emergency case.

No bodies will be removed from the [illegible] They will lie in state [illegible] until tomorrow when they will be returned to relatives [illegible] many of whom are now keeping [illegible] outside.

The sons, daughters, mothers, wives and fathers of these men whose lives were snuffed out by the flames and [illegible] were not admitted immediately [illegible] Only [illegible] and newspaper men [illegible] the structure.

The [illegible] of Ohio will send the [illegible] to their homes [illegible] to the residences of the [illegible] will be paid.

CONFLICTING planetary configuration are seen in this day's lunar chart. Although there are indications of financial benefits with some promise of fulfilled ambitions and advancement or growth of business yet there are also some hazards through litigation, misrepresentation, fraud or slanderous attack. It would be well to be on guard against these and to safeguard the personal relations and standing as the private affiliations are also in peril.

Those whose birthday it is may make some progress and achievements during the year but they are also beset with the menace of law, fraud, duplicity and slander. They should be on guard against these adverse conditions in the business and personal life.

Naval Treaty Signed and London Conference Adjourns

ALL PLEASED WITH RESULTS

Expressed That Time Will Bring Full Five-Power Pact.

[illegible] April 22—With the signing of five nations delegates at the naval treaty the five London conference adjourned at [illegible] today Eastern Standard time.

The session of the parley [illegible] little less than three hours [illegible] time was taken up with [illegible] the chief delegates. The signing [illegible] only 14 minutes. The naval treaty took place in the library of peace today [illegible] 17 weeks after [illegible] respendent opening in the House of Lords on Jan. 21 the conference [illegible] plenary session in [illegible] drawing room in ancient [illegible] palace and the chief delegates of each of the five nations affixed their signatures to the latest [illegible] composed to further the [illegible] of disarmament.

At Horseshoe Table

The signing session opened at 10 32 a. m. (4 32 a. m. Eastern Standard time). The delegates of the five powers grouped themselves around a crimson covered horseshoe table and of all those who participated in the brilliant opening three months ago only Foreign Minister Dino Grandi of Italy and Premier Andre Tardieu of France were absent.

Fitful bursts of sunlight filtered through the four crimson-draped windows of the historic room making artificial light for once unnecessary.

An atmosphere of satisfaction and pride pervaded the chamber. All the delegates were smiling and happy, unquestionably relieved that the conference was within a few hours of its close and that a successful naval treaty had crowned their weeks of [illegible] effort.

Opening the session in his capacity of president and chairman, Prime Minister J. Ramsay MacDonald announced without dissent that he was assuming responsibility for transmitting to the League of Nations secretariat the results of the London work [illegible] of armament limitation which were not incorporated in the treaty itself.

1931 Meet Called Off

At the same time he announced that the 1931 conference provided for by the Washington conference would not now be held because of the fact the London treaty had anticipated its work.

Premier MacDonald then announced that the heads of the various delegations decided the parley henceforth should be known officially as "the London naval conference of 1930" and the treaty as "the London naval treaty of 1930."

The premier then read rather rapidly his final speech to the conference calling the treaty "the foundation stone on which others will build with thankful hearts."

"We have now gone as far as we can at present," MacDonald declared. "Compared with Washington and Geneva we have progressed far. Compared with our desires we have fallen short."

Premier MacDonald's opening address which was read with rapidity was followed by speeches by the other chief delegates. Secretary of State Henry L. Stimson spoke for the United States, Foreign Minister Aristide Briand for France, Admiral Sirianni for Italy and ex-Premier Reijiro Wakatsuki for Japan. Each of the British [illegible] delegates also delivered addresses.

All Pleased

All expressed gratification over the successful conclusion of the tripartite treaty and Briand and Sirianni [illegible] hopeful that the near future would enable them to compose the differences [illegible] so the agreement could be revised into a full five-power pact.

When these speeches were all completed and translated for the benefit of the delegates and the 100 newspapermen assembled in the drawing room, the actual signing of the treaty took place.

U. S. and England To Be on Parity by 1936

By The Associated Press

LONDON, Apr. 22—By terms of the naval treaty signed today by representatives of the five powers at London the United States should have achieved parity with Great Britain by the date of its expiration Dec. 31, 1936. Japan will occupy at least [illegible] a ratio of naval power somewhere between the five-five-three capital ship ratio agreed upon at the Washington 1922 conference and the ten-ten-seven auxiliary ship ratio which the Tokyo delegation sought at the beginning of this conference.

Nine battleships are to be scrapped, or in the case of three converted to training vessels, and a five-year capital ship construction holiday is decreed. The ships to be scrapped are for the United States the Florida, Utah, and either the Arkansas or the Wyoming [illegible] when [illegible] the [illegible] Japan [illegible] the [illegible]

Big Construction Work Awards.

Contracts for utilities and public works construction awarded during the first three months of the present year reached the enormous total of $703 000 000 a sum fifty five per cent greater than the total for the same period last year and over $100 000 000 greater than the total of the first quarter of any year since 1924. Such was the statement given out by Secretary of Commerce R. P. Lamont for publication Monday

The totals for the period for the four years preceding 1929 were $159 660 000 in 1925 $220 236 000 in 1926 $217 964 000 in 1927 and $242 357 000 in 1928

The public building awards alone Secretary Lamont announced amounted to $32 337 000 which was an increase of 33 1 3 per cent over the awards during the first quarter of 1929 and made a new record for the past five years, while the hospital and public institution awards were seventy four per cent over those of the preceding year again a record for the past five years

Against these increases there was a falling off from the record of the first quarter of 1929 of two per cent in awards for educational construction and of seventeen per cent for recreational structures

As might have been anticipated in the light of the crash in Wall street last fall and the consequent [illegible] of financial depression [illegible] private construction [illegible] and March. Of this [illegible] Secretary Lamont [illegible] ment

"In the field of [illegible] construction the three major [illegible] that field were below the [illegible] of last year with residential [illegible] lagging far behind. Contracts [illegible] commercial buildings were fifty [illegible] under the first quarter of 1929 [illegible] industrial buildings seventeen per cent [illegible] and residential forty eight per cent behind the first three months of last year

In a word history repeats itself by showing the recession in private construction which inevitably marks a recession in employment. But despite this falling off in commercial, industrial and residential construction so great has been the gain in awards for construction of utilities and public works that its effect should soon be manifested on the unemployment situation [illegible] as Secretary Lamont reports [illegible] after [illegible] the serious [illegible] problem [illegible] country has been facing since last fall.

Even should it be determined beyond all question of doubt that the prison was set [illegible] by desperate convicts in the hope of effecting a prison delivery, the many should not and must not be held responsible for the few

There has never been a catastrophe in the memory of man in which there have not been cases of heroism standing out in high relief from the background of black gloom and last night's calamity was not an exception to the rule. Even the sickened hearts of Ohioans quicken today at thought of the splendid heroism manifested in the work of rescue by officials guards soldiers police firemen and prisoners as well many of the convicts having been among the foremost of the rescue workers

The lives of the poor unfortunates who met death in last night's fire can not be recalled, but precautions can be taken against another such horror until a state prison as nearly fireproof as human ingenuity can make it can be erected. The state of Ohio owes it to itself to build such a prison. With the awful example of last night before her Ohio can not afford longer to delay the construction of such a prison as will not be a reproach to her. Let us who are enjoying liberty give more thought than we have in the past to the safeguarding of the lives of those committed to serve time behind prison walls. They are convicts. It is true but they are human beings and the horror of last night demonstrated that some of them at least are capable of attaining the heights of heroism

Diseases of the Teeth.

BY ROYAL S COPELAND M D

That there are unknown factors underlying diseases of the teeth besides pyorrhea and tooth decay is a fact that has been recognized for some time. Now it has been announced that under the direction of the Columbia School of Dental and Oral Surgery, a three year program of research in tooth decay and diseases of the teeth has been undertaken

There is to be a cooperative program of the Columbia Dental school with a research group at Yale under the direction of the Rockefeller foundation and with other research workers in this country and Europe. It is hoped that far reaching results will be obtained in seeking the causes of diseases of the teeth and tooth decay

For many years the dental and medical professions have recognized the fact that dental diseases such as pyorrhea and dental decay have their origin in faults of nutrition and diseases of the system. The old theory was that decay of the teeth was due alone to the acid films which form on the teeth by fermentation of food particles. But many persons were found to be possessed of teeth which never decayed even though these persons never used a toothbrush. Others brush their teeth often and have tooth decay.

It is to be hoped that such a study will bring a discovery of a means to prevent these defects. Tooth decay and pyorrhea are almost as prevalent today as the common cold. Thousands of the thousands who would be benefited in health by the possession of sound teeth

From earliest childhood care of the teeth is most important. Infant feeding and continued watchful care of the diet of the growing child are essential for strong teeth in later life

It is very necessary to know something about the nutritive value of foods in arranging the family diet. It has a direct bearing upon strong bones and sound teeth

To a great extent dental decay can be avoided by keeping the teeth clean. They should be brushed night and morning with a stiff brush. Food must not be allowed to collect between them

These spaces afford lodging places for food and for germs to develop. Use a quill toothpick or dental floss to remove food particles from between the teeth. A good antiseptic mouth wash is excellent but warm water and salt make a very good mouth wash

Diseased teeth and broken teeth are the common cause of infections in the system and such infections may bring on degenerative diseases, with undermining of the general health. By regular visits to a dentist once or twice a year disease and decay of the teeth and gums are preventable. In our great cities are splendid hospitals and clinics where the teeth of the poor are attended to free of charge. There is scarcely any one who can not have treatment of the teeth

Editorial Opinion.

ACCIDENTAL FALLS

Records in the bureau of vital statistics of the state board of health show that from 1911 to the close of 1929 injuries suffered in accidental falls caused the death of 17 750 people in Ohio. The records for 1929 show there were 1 107 deaths from that cause and in 1928 the number of deaths was 1 251

In a study of the records made for the Ohio Health News it was learned that men have most fatal accidents from falling when they are under seventy years of age but after that age the greatest number of victims are women. In 1929 there were 318 deaths caused by falls in the home and of that number 183 were hurt in falling down stairs thirteen tripped on carpets and twenty [illegible] over chairs

It has been known to insurance companies that home accidents take a heavy toll of human life each year. The importance of home accidents is shown in the price for accident insurance quoted by some companies writing the popular priced policies. In these policies there is no insurance against accidents that occur in the home. The difference in the rates quoted for these popular policies and for rates in standard policies that cover all accidental injuries prove the immensity of the dangers that surround men and women in their own homes

Students of insurance claim people are extremely careless in moving about in their own homes. They underestimate the dangers of that carelessness they do not observe the ordinary rules of safety the result being a continuing loss of life particularly among people of ripe age —Ohio State Journal

SEND THEM FORTH

Dayton Ohio through the offices of United States District Director of Immigration Thomas [illegible] of this city, has achieved the deportation of three undesirable alien citizens

Every such action and procedure makes for the betterment of this country and should serve greatly to assist to a proper solution of the national crime problem

The immigration authorities of Chicago are demonstrating a commendable activity and alertness in this matter which profoundly affects the unfortunate crime situation in that city. It is making a serious effort to round up and cause the deportation of all undesirables

A vigorous enforcement of this policy should be made an object of chief consideration in every city in the land. In most cities these undesirables are known. Any political or other protection which enables them to live in America in defiance of the immigration laws is in itself criminal and is calculated to injure the social and political well being of the people —Cincinnati Enquirer

Ohio and Anti-Slavery Amendment.

BY J H GALBRAITH

The Ohio congressmen took important parts in the consideration of the thirteenth amendment to the constitution which did to death slavery already given a mortal wound by President Lincoln's emancipation proclamation. They were James M Ashley Samuel S Cox and George H Pendleton. Senator Trumbull was the author of the amendment and the resolution submitting it and it passed the senate easily but the house defeated it on its first consideration vote ninety three ayes to sixty five noes. Congressman Ashley, who had voted aye changed his vote with a view to moving a reconsideration and this he did on January 6 1865

Mr Pendleton spoke against the amendment making one of his great speeches in the house on this occasion. Mr Ashley was of course among the leading supporters of the resolution. Mr Cox spoke favorably to the proposition though he finally voted against it. This was a painful surprise to the supporters of the amendment. He afterward explained that he had favored the amendment denying that his party had ever favored slavery or defended [illegible] and said that there were certain efforts being made by leaders of the two sections of the country toward peace that would end the war with good feeling on both sides

He pressed his motion upon Mr Ashley contending that the adoption of the amendment at the moment would [illegible] terminate the negotiations [illegible] As [illegible] insisted that there was no such a movement on foot and when Cox replied that he knew there was he secured a written statement from [illegible] to the effect that the administration had no knowledge of any such peace negotiation

Gliders

BY ARCHIBALD HENDERSON

[illegible]

It was an American [illegible] who in 1891 [illegible] model [illegible] box kit which [illegible]

The father of [illegible] man Otto Lilienthal [illegible] made a [illegible] he was not able [illegible] making his flight [illegible] rapidly hither and thither [illegible] his balance. On one of [illegible] flights he was [illegible] his balance the glider fell and Lilienthal was killed

Other inventors notably Maxim and [illegible] a Frenchman and Pilcher an Englishman experimented with gliders. Another of [illegible] was Octave Chanute who in the last decade of the nineteenth century [illegible] gliding flights on the shores of Lake Michigan. Chanute used parallel surfaces as a basic principle for these gliders [illegible] as many as five plane surfaces one above the other. Experiments [illegible] showed that the best form was two parallel [illegible] connected as in the case of [illegible] biplane

Chanute was unable to invent any device for keeping the two surfaced glider on an even keel. As in the case of Lilienthal Chanute had to shift his body continually to preserve the glider's balance but not nearly so much

The Wright brothers approached the problem of aviation from the glider standpoint. They succeeded in inventing a device by which the wings could be warped a little at the rear. As Kaempffert says of this device: When a wing dropped the pilot moved a lever to bend the rear edge of the falling side down a little. This caused that wing side to offer more resistance to the air. More resistance means more pressure. Hence the falling side encountered more air pressure and was forced up. At the same time the wing on the rising side was slightly bent up so that the air had a little less surface to press against with the result that the rising side would drop. Simple as the trick is it made the flying machine practical

The Wright brothers made many entirely successful gliding flights at Kitty Hawk N C a quarter of a century ago. The longest of these flights lasted nine minutes and forty five seconds —Copyright 1930 International Feature Service Inc

ALICE WHITE explains why some girls are so *Enchanting*

ALICE WHITE, petite First National star, in the bathroom created especially for her in Hollywood. She says: "Lux Toilet Soap gives my skin that peach-bloom smoothness that is so important to a girl's charm."

Alice White

Photo by Elmer Fryer, Hollywood

"WHEN a girl is fascinating," says dainty Alice White, whose vibrant charm carried her so swiftly to stardom on the screen, "you may be sure of one thing. Her *skin* is lovely!

"Beautiful skin *always* attracts. It is certainly the most important charm any girl can have.

"In Hollywood, you know, the directors all found out long ago that if a girl is to win millions of admirers on the screen, her skin must have that peach-bloom smoothness that is so ravishing.

"The glaring close-up lights would reveal even the *slightest* imperfection in the skin. And so, of course, every star in Hollywood guards her complexion *most* carefully.

"So when I say we use Lux Toilet Soap—almost all of us—you may be sure we think it is a *splendid* soap. Such soothing lather, and it leaves the skin so exquisitely smooth and soft.

"It is such a simple way to keep the skin lovely! Any girl can follow it, with the same good results."

9 out of 10 Lovely Stars use it—in Hollywood—on Broadway—in Europe

Of the 521 important actresses in Hollywood, including all stars, 511 are devoted to Lux Toilet Soap. All the great film studios have made it the *official* soap for their dressing rooms!

The lovely Broadway stage stars, too, have discovered that Lux Toilet Soap gives their skin just the gentle care that is required.

And now the European stars are using this fragrant white soap! You, too, will want to try it. Order several cakes—today.

CHAPTER 24

[illegible] Declares Himself

[illegible] passed three of the [illegible] able days Jacqueline [illegible] forget Teddy and [illegible] whirl of life but she [illegible] spend money recklessly [illegible] greatest use [illegible] [illegible]

[illegible] the Savoy for dinner [illegible] the opera [illegible] bored [illegible] understand [illegible] she could [illegible] of that one evening [illegible] past when she [illegible] to the opera [illegible] a great deal more [illegible] had always been under the [illegible] that people who moved [illegible] life could never possessed. Now she was beginning [illegible] a fancy dress ball at [illegible] felt like a lost [illegible] wilderness. Several young [illegible] to be agreeable to her at [illegible] but Jacqueline snubbed [illegible] tively [illegible] was the matter with her [illegible] only was she [illegible] [illegible] was [illegible] beau [illegible] And she had to make [illegible]

[illegible] R[illegible] are [illegible] She wrote [illegible]

[illegible] was [illegible] it came to an end [illegible]

Why was Teddy Morrose staying away from her?

[illegible] was for the [illegible] Her money was nearly [illegible] been going [illegible] disappear [illegible]

The explanation came on the third day after the [illegible] of Mr McAllister. It was [illegible] of a letter.

My Dear Jacqueline

I [illegible] and I [illegible] come [illegible] intend to say.

I'm going to say one of them [illegible] That's why I've got to run away [illegible] Not that it does any good of course but when a fellow loves a girl as I love you [illegible] know [illegible] if there is nothing that can be done about it—nothing [illegible] I mean. I hope you don't mind.

[illegible] I am writing [illegible] like a [illegible] the first time I saw [illegible] and it has [illegible] When [illegible] me [illegible] the road for [illegible] so to speak [illegible] had been sent [illegible] just for me and that I [illegible] sent [illegible] to clear the road for you. And that's what I'd like to do—things were different—to walk by your [illegible] through life and wipe the trouble out of your way as [illegible] as many of them as I could.

If things had been different I believe I [illegible] have done it or at [illegible] I believe I could have made [illegible] happy. But things [illegible] you want [illegible] and I am [illegible] about [illegible] the everlasting rocks.

[illegible] have [illegible] I mean not in the permanent sense. And you would be right. If I hadn't [illegible] sky high by making an [illegible] with the Old Top—well I think I could have [illegible] up enough courage [illegible] me and ask you to marry me. But being [illegible] to bedrock I am not going to do anything of the sort. I only just tell you that I love you because I [illegible] want you to know. I've got an idea it might help me [illegible] time to come. I don't suppose it will [illegible] any [illegible] you are kind, and I know you will think kindly [illegible] me. And of course if at any time you want a [illegible] head punched or anything of that sort which is in my line you've only got to roll up your little finger and wiggle it about once in my [illegible] and I'll be there with the goods so to speak.

"You see I'm not very good on brains so the Old Top tells me and I [illegible] he's right. And if I had to [illegible] for my living as I have to [illegible] not going to be [illegible] sort of living which I could ask you to share.

"So goodbye Jacqueline and I'm glad that I've known you and loved you. It's taught me quite a lot that I might not have [illegible] years [illegible] if it hadn't been for you. If only you were as poor as I or I were [illegible] things might have been different. But there you are. The world is full of a number of things.

TEDDY

It was a noble letter expressed in the irresponsible Teddy style [illegible] [illegible] for a long time [illegible] did not go out that night because she found she had a headache and it was a bad one.

Teddy had written from his club and the letter of course demanded an answer. But it was three days before she could write the answer. In the end she wrote a letter which she considered would be final.

She realized now that she loved the gallant and irresponsible Teddy as she had never dreamed of loving any man. She had in fact never loved a man before.

The men she had met had meant no more to her than her girl friends, and she had come to the conclusion that she had not the necessary emotional equipment to fall in love with a man as her favorite heroes of the screen fell in love with their heroines.

And then Teddy had come with his simple worship his boyish eagerness to fight battles for her and his gallant inconsequential air. In the end this rather fine withdrawal because in his modesty finding himself penniless he thought he had nothing to offer her that would be worth her while.

This is what Jacqueline wrote finally after taking thought for three days.

My Dear Teddy

"I am glad you have told me and I shall always remember with happiness that you saw something in me good enough to love.

I hope you will not think I am hard and cold because I am not that at all. I feel very deeply what you have told me and I believe it will make me a better girl to know that you have loved me.

"I don't want to say any more because I agree with you that it will be better for both of us if we do not see each other again. If things had been different—our circumstances I mean there might have been something better for us in the future. But as things are I don't see how there can be. But I believe you could make any girl happy who was fond of you, Teddy.

I hope the world will be full of many good things for you.

"JACQUELINE."

Husband Had to Do Her Work

"When my baby was a month old I took a heavy cold and after that I felt miserable. Could not lift anything. My husband had to help me with the housework. I was so weak I could not do a washing. I saw Lydia E. Pinkham's Vegetable Compound advertised in the Kittaning paper and I gave it a good trial. Before I had taken half a bottle, I found the difference. I do all my own work now and I have told others how much this medicine helped me."—Mrs. Alice Bassett, Cadogan, Pennsylvania.

A Story of Humorous Boyhood Adventure

By JUDD MORTIMER LEWIS

THIS was Tuesday. People are funny. My teacher used to be a nurse in the war and she has got ten days off from school and has went over to the hospital to stay with Annabelle Lee. When I had let Jubilee down and had done my work and et the pancakes my aunt made and wiped the dishes for her my aunt Jubilee skun out to the hospital and I told Jubilee to lay down on the step and wait for me and I went in. The head nurse saw me and said. Oh you're the little boy that used to come to see Pudgeon [illegible] and wanted him to get well [illegible] [illegible] him? Yessum I said and she said Did you ever lick him? I said Nom but I can. Then she smiled and went up with me to the room where Annabelle Lee is. A lot of people had sent a lot of flowers and then I saw my teacher, and she grabbed me and hugged me and wiped my eyes with her handkerchief and told my mother I was the best little boy in school. I never thought I would live to see the day a teacher would say I was the best boy in school. I was kinda ashamed but nobody but my mother heard her say it. Then they let me go in and look at Annabelle Lee and she was laying there on her back with her yellow curls around her head and I leaned over her and was going to put my arms around her but my mother wouldn't let me and I tried to say something but I couldn't and Annabelle Lee gave a skinny little smile and put her little hand against my face and then I busted all to pieces. Then the teacher took me out in the hall and hugged me again and told me I must be brave and she told me to be nice to the teacher that was taking her place and my mother come [illegible] and kissed me and cried and told [illegible] she had never been so happy in her life.

When I went out the front door Jubilee got up and licked up in my face so I sat down by him and put my arms around him and he whined a little and I cried a little and then we went to school. I was sorry I didn't carry a handkerchief like Whitey does but I pulled my coat up and wiped my eyes and when the fellows got around me at school to ask how Annabelle Lee was I told them all of the teacher being at the hospital. I said that any of them that wanted their faces punched crooked had only to look crosseyed at the new teacher. But none of them did. I didn't have any luck. We all got our lessons and cleaned the blackboard for her and before school let out she told us we were the best children she ever taught. And we are all going to be all the time she is here or I'll be put in the hospital with Annabelle Lee. My mother is staying at home tonight. She said my teacher is an angle without wings.

Council Acts On Part of $120,000 Improvement Program

STREET WORK NOT INCLUDED

Paving Projects To Be Acted Upon After Contracts Are Awarded by Officials.

Council last night passed a major portion of the $115,000 improvement program recommended for the city of Marion in 1930 without making a single cut in the figures set by the finance committee.

In fact, it added on something like $5,000 to take care of a new hospital kitchen, which was not included in the recommendations of the committee.

The program acted on by council last night did not include approximately $57,000 in street resurfacing and paving work recommended by the finance committee, but this part of the program is not to be acted on until the jobs are let. With other legislation for the street work already passed, there is virtually no possibility of council refusing to approve those issues.

To Issue Bonds

Legislation passed last night by council declared it necessary to issue bonds for various amounts aggregating more than $71,000 which is to be used this year in various improvements other than street paving.

It also authorized the issuance of short term notes, which will enable city officials to get money almost immediately for the work.

An issue of $26,775 will be floated to provide a modern fire alarm system for the city if present plans develop. This amount would replace the present inadequate and antiquated system.

Another issue for the fire department provides $1627.50 for the purchase of fire hose and addition of a dining room to company No. 3, Mark st. Approximately $1,300 will be spent for hose, $300 for the dining room. The remainder of the issue will take care of interest and printing charges.

City hospital, within striking distance of official rating as a first class approved hospital, is expected to obtain that rating sometime this year when improvements provided for last night have been completed.

Plans for Hospital

For alteration and improvement of the hospital kitchen, bonds for $5,100 will be issued. A similar amount will take care of an X-ray machine and equipment which that institution has needed badly. Another issue of $5,355 will provide for the construction of a laundry building and purchase of equipment.

A bond issue for $7,497 was provided for city parks. Of this amount, $2,140 will be used in repairing and improving park buildings, and $4,000 will be used to complete a drive in McKinley park. The remainder will be consumed in interest and other charges.

One issue of bonds amounting to $2,855 will provide funds to purchase two wagons or trailers for the garbage department.

Three new traffic light signals will probably be installed here during the year. Funds for three new lights, as well as for lights installed last year at Center and Leader sts., amounting to $2,677 were provided for in a note ordinance passed last night.

Location of the three new lights will probably be at the intersection of Main and George sts., Main and Fairground sts., and Bellefontaine av. and South Prospect st.

One-Year Notes

Notes, in anticipation of the bonds, will be issued as of May 1, and will have a life of one year. Life of bonds, to be issued as of Dec. 1, 1930, will vary from two to 13 years.

One issue provides funds to carry out the first year's work of a five-year sewer program recently outlined for the city. Principally a corrective measure to separate the intercepting sanitary and storm water lines, the program this year calls for expenditure of slightly less than $6,720.

MORRAL GAINS IN 10-YEAR PERIOD

Marion County Village Increases from 387 in 1920 to 451 in 1930.

An increase of 16.5 per cent. in the past 10 years is being boosted today by the village of Morral, with the unofficial census returns showing a mark of 451 for the village. This figure was made public today by District Supervisor Frank A. Beery.

In 1920 Morral had a population of 387. The 1910 figure was 334.

Ninety-eight men were hurt during the razing of two buildings in New York.

DATE SET FOR LOAN MEETING

Marion Companies Expected To Send Representatives to Mansfield Session April 28.

A number of representatives of Marion building and loan companies are expected to be among the group of officials from 30 building and loan companies in ten north-central Ohio counties, comprising District No. 5 of the Ohio Building Association league, who will hold their eleventh annual spring meeting at Mansfield, Monday, April 28, at the Hotel Leland.

Delegates at the meeting will represent financial institutions with total assets of approximately $51,000,000.

The meeting will open with a luncheon at noon, followed by a business session in the afternoon. The principal addresses will be made by John F. Fergus and James A. Devine, Columbus, president and secretary respectively of the building and loan men's state organization. Chance E. Dewald, district president, will preside at the meeting.

In addition to Mr. Dewald other officers of the group are J. E. A[illegible] [illegible] W. Ma[illegible]

Building and loan companies in Marion which will probably send representatives to the meeting are the American Building & Loan Co., the Citizens Building & Loan Co., the Home Building Savings & Loan Co., the Marion Building Savings & Loan Co. and the Peoples Building Savings & Loan Co.

Various Ills That Ruled for 18 Months Are Ended by This New Medicine

MRS. L. D. JOHNSTON

"In my case Konjola did what all else I tried failed to do," said Mrs. L. D. Johnston, West Jefferson, Ohio, near Columbus. "My appetite failed completely, and what little I did force myself to eat caused intense stomach pains. I always felt tired and worn out, had dizzy spells and terrific headaches that lasted for days at a time. I was just sick all over and felt miserable.

"But what was I to do? Not a medicine I tried helped me a particle. A friend who knew my condition highly recommended Konjola. I decided to take her advice. Well, to make a long story short, six bottles of this splendid medicine completely ended everyone of my health troubles. I am gaining in weight and feeling [illegible] headaches is joy to me! I [illegible] my duty to indorse such a wonderful medicine."

BATTERS BLAST OUT 90 HITS MONDAY

HURLERS ON DEFENSE FIRST TIME IN 1930

See Deliveries Slammed All Over Parks in Barrage of Base Safeties.

BY HERBERT W. BARKER
Associated Press Sports Writer

PITCHERS [illegible] season that national league [illegible] have found it necessary to take them down a peg or two.

Wear[illegible] of reading accounts of two and three-hit games, batters in the four games of the older circuit yesterday grasped their bludgeons firmly, took a toe-hold and blasted out 50 safe hits, nine of them home runs.

The day's batting honors went to the New York Giants who smashed out 11 safeties including four for the circuit to beat the Phils, 8-6, and chalk up their fourth successive win without a defeat. Travis Jackson, Giant shortstop, hit twice for the circuit and Fred Leach and Bob O'Farrell each contributed one homer to the common cause. The Phils hit Bill Walker hard but could not bunch their 11 safeties to enough advantage to offset the Giants' powerful slugging.

Wilson, Hartnett and Beck hit homers as the Chicago Cubs whipped Cincinnati, 9 to 1. All told the Cubs collected 14 safe hits off four Red pitchers while Hal Carlson set down the enemy with five.

Del Bissonette was the big noise in a 16 hit attack the Brooklyn Robins launched against the Braves to win, 15-8. Bissonette drove in seven runs with a homer, triple and single. Adolfo Luque pitched steady ball for the Robins but had to retire in the ninth when a line drive from Sisler's bat hurt his pitching hand.

In the other national league fray, the Pittsburgh Pirates made good use of their seven hits to beat St. Louis, 6-4. The Cards collected nine safeties but Brame was effective in the pinches. Comorosky hit for the circuit in the second inning.

Pitchers dominated the American League games. Irving (Bump) Hadley of the Washington Senators, was too much for the Philadelphia Athletics and the A's went down to their first defeat of the season, 6-3.

Clint Brown, rookie pitcher, held the Detroit Tigers to five hits and Cleveland won without trouble, 6-1. The Indians batted around in the first inning scoring four runs on five hits.

Ted Lyons was the whole show as the Chicago White Sox nosed out St. Louis, 3-2, in ten innings. Lyons held the Browns to five hits and scored the winning run in the tenth when he tripled and came home on Ernie Smith's single.

Indians Wallop Tigers in Series Final; Reds Lose

BROWN YIELDS FIVE HITS TO SET DOWN DETROIT TEAM 6-1

Cincinnati Reds Again Take It on Chin as Cub Sluggers Connect.

By The Associated Press

DETROIT, April 22—The Cleveland Indians batted around in the first inning, accounting for four runs with five hits, two sacrifices and an error, then held Detroit to a lone score and won the last game of their series here Monday, 6 to 1.

Clinton Brown allowed the Tigers five hits. Two of them came in the opening inning when the only Detroit score was made.

The Indian clubbers began the game with Morgan's single. J. Sewell sacrificed, Johnson muffed Seeds' long fly and Morgan scored. Fonseca's double scored Seeds. Hodapp beat out a bunt. L. Sewell singled, scoring Fonseca. Jamieson singled, scoring Hodapp.

The Tigers made a one-run rally in their half of the first, but never threatened seriously in the other eight frames.

Brown, who is a Cleveland rookie, was thoroughly impressive in his first appearance on the slab. He came to the Indians from New Orleans.

Score by innings:

Cleveland	400 000 020	6
Detroit	100 000 000	1

REDS TROUNCED

By The Associated Press

CINCINNATI, April 22—Hal Carlson toyed with the Reds while Chicago's sluggers drove three home runs over distant Redland field walls, enabling the Cubs to win Monday, 9 to 1. Every visitor made at least one hit. English led with three safeties. Homers by Wilson, Hartnett and Beck accounted for six runs.

Heilmann, pinch hitting in the eighth, drove a ball clear over a building on the outside of the park, but the blow was foul by two feet. Previous to Monday's game the former American League slugger hit safely as a pinch hitter in three consecutive games.

The Cubs started their fireworks in the first inning. A single and a bunt placed two on base and Hack Wilson scored them with a mighty drive over the center field wall. It was only the fourth time in the history of the park that a ball had been driven over the flagpole corner.

Hartnett's single, an error by Campbell, who threw a bunt into center field trying to catch Hartnett at second, and a sacrifice scored another for the visitors in the second. Cuyler's single, Allen's error and Stephenson's sacrifice accounted for another run in the third, and singles by Carlson, English and Cuyler brought one more in the fourth.

In the fifth, Stephenson singled and scored in front of Hartnett on the latter's circuit blow. Beck followed Gabby with another homer. The Red's lone tally came in the eighth on Cuccinello's single and Ford's triple. Score by innings:

Chicago	311 130 000	9
Cincinnati	000 000 010	1

N. C. O. TRACK MEET DRAWS 24 SCHOOLS

More Than 500 Athletes May Compete in Annual Affair at Mansfield.

By The Associated Press

MANSFIELD, April 21—Twenty-four high schools had filed entries in the North Central Ohio track meet to be held here Saturday when the list was closed today.

They were Scott High of Toledo, East and South of Columbus, East Tech, Cathedral Latin and East High of Cleveland, Garfield of Akron, Shelby, Willard, Wooster, Lakewood, Medina, Amherst, Avon, Elyria, Bucyrus, Parma, Kent, Roosevelt, Monroeville, Plymouth, Logan, Ashland and Mansfield.

More than 500 athletes are expected to compete. Mansfield won honors last year with Columbus East second.

Johnny Risko, Cleveland heavyweight fighter, has been invited to attend as honorary referee, Coach Harry Mehock of Mansfield High, said.

If the next war is "humanized," there will be no spiral putties.

GUN CLUB TO HOLD MERCHANDISE SHOOT

Eight Events Carded on Thursday Afternoon Program at New Grounds.

The Marion gun club will hold a special merchandise shoot at their traps on the Harding Highway, three miles east of the city Thursday, April 24. The events will commence at 1 o'clock in the afternoon. The program follows:

One hundred targets in eight events (four of 10 each and four of 15 each). Entrance fee $4.00; 50 per cent of which is set aside as a purse divided each event, 50-30-20. Divided in case of a tie. No shoot-offs.

Merchandise Shoot.

Sugar—25 pound sack, first prize; 10 pound sack, second, for each squad of five men.

Specials—Geissler Hat Shop event. Ten men shoot ten targets each. High gun gets $5.00 hat.

Jim Dugan event. Ten men shoot ten targets each. High gun gets a ticket good for $5.00 in merchandise at Dugan's Clothing Store.

Charles F. Smith event. Ten men shoot ten targets each. High gun gets a ticket good for $5.00 in merchandise at C. F. Smith's Clothing Store.

Richman Brothers' event. Ten men shoot ten targets each. High gun gets a ticket good for $5.00 in merchandise at the Richman Clothing Store.

Each man shoots in his own class. As nearly as it can be done, squads will be formed of men in the same class, that is according to their ability to shoot, thus giving all shooters the same chance.

If time permits there will be more than one of the special events. There may be more than one man want a hat or other article of clothing.

Marysville To Compete in Tri-School Meet

MARYSVILLE, April 22—Marysville high school athletes will renew competition with other schools for the first time since the close of the basketball season when Coach "Jerry" Kingsmore takes the squad of tracksters to Kenton Friday for a three-cornered meet with Kenton and Prospect.

CITY BASEBALL TO AGAIN BOAST FOUR EIGHT-TEAM LOOPS

Last-Minute Entries Swell List; Three New Clubs Entered for 1930.

MARION city recreational baseball is assured of another summer of four league competition. According to the assistant secretary of the commission last minute entries brought the number of teams entered to 32 or four eight team circuits. Of these 32 all but three are former members of the various loops. New teams which last night received the official vote of confidence of the commission were the General Excavator Co., Serv-U-Wel stores and St. Paul Evangelical church. There is a possibility that Asbury M. E. will be permitted to enter a second team in one of the circuits for play this season.

President Crissinger of the baseball commission at a meeting last night appointed four committees to serve this year. They are: Rules committee: W. N. Harder, R. G. Smallwood, and Francis Baron; Purchasing committee: Earl Smart, Leo Keller, and William Fabian; Schedule committee: Elmer Shaw, Tim Cunningham and W. D. Martin; Grounds committee, A. E. Pickerel, Elmer Smith and Homer Little. The grounds committee will report on the condition of the various city diamonds at the next meeting, April 28.

The commission reported a movement on foot for the [illegible] of a diamond on the grounds adjacent to the Harding Memorial. The Memorial association has announced a willingness to cooperate with the city recreational board for the adoption of a new diamond which would give the city a diamond in each section of the city. The Harding Memorial grounds already have a playground but no diamond.

The baseball commission will meet again next Monday night for consideration of business concerning the opening of the season May 12.

Legion Baseball Teams Play Practice Game

Baseball teams representing Marion National and National City banks of Marion played their first game of the year Monday afternoon with National City winning the contest 21 to 20. The game was ragged, 19 errors being chalked up against the two teams.

John and Earl Castner held a pitchers dual for the first six innings with Earl holding the edge when they left the game. Batteries for the teams were: National City, John Castner, Eckenberger and McAninch. Marion National, Earl Castner, Vestal and Howser.

This Game of GOLF

By O.B. KEELER

By The Associated Press

CONTRARY to the expressed opinion of a number of golf critics and well-known professionals that the American ladies' team had little or no chance to win the first international match with the British team at Sunningdale May 1 and 2, I feel that our girls have at least an even break, especially since learning the personnel of the party sailing April 22 on the Berengaria.

The opposing view takes a rational cognizance of the following handicaps:

1. The invaders will have, at most, three days of practice before the match.

2. They will find a vast difference in climatic conditions.

3. They will experience the usual difficulties of American golfers, men and women, in adapting their game to British courses and British breezes—and Sunningdale is likely to offer a breeze.

4. They will meet a rank and file of opponents better balanced in competitive play than the feminine experts of this country.

On the other hand, it seems certain that Miss Wethered, Miss Cecil Leitch and Miss Mollie Gourlay, admittedly the three best feminine golfers in Britain, are not to compete.

* * *

With this formidable trio in the Gallery, it is hard for a patriotic American to figure who is to beat Glenna Collett, Helen Hicks, Maureen Orcutt and Virginia Van Wie—a great quartet forming a nucleus of half the team, with the capable support of another four to be selected from Mrs. O. S. Hill, Miss Edith Quier, Miss Bernice Wall, Miss Peggy Wattles, Miss Marian Bennett, Mrs. Leo Federman, Mrs. Stewart Hanley, Miss Virginia Holzderber, Miss Rosalie Knapp, Miss Louise Fordyce, Mrs. H. A. Martelle, Miss Frital Stifel, Mrs. Lee Mida, and perhaps others who may decide to go.

My selection of a team, from the roster in hand, would be something like this:

Glenna Collett,
Helen Hicks
Maureen Orcutt,
Virginia Van Wie
Edith Quier,
Mrs. Federman,
Mrs. Hill,
Louise Fordyce or Bernice Wall.

A couple of Pacific coast players could be included in the American team with benefit, but they are not announced as going.

* * *

Undue optimism may be suppressed by considering what Mrs. Dorothy Campbell Hurd said at Virginia Hot Springs in 1928, concerning the defeat of Miss Collett by Miss Mabel Wragg in the British ladies' championship that year.

"The American writers all are asking, 'Who is Miss Wragg?'" she said. "I can tell them that in Britain the woods are full of Miss Wraggs. There are hosts of fine players there that Americans never hear about."

Which also is something to remember.

Today

Again, Lindbergh. Zaro, and a Turtle. Great Rome, Her Birthday. Wrong, Mr Shaw.

BY ARTHUR BRISBANE

THE BRAIN power of man seems [illegible] The civilized world [illegible] the intellectual [illegible] of America. Pershing day [illegible] ahead and [illegible] dragging [illegible] the new great feat of [illegible]

You see today pictures of Lindbergh and his wife in costumes for long air flying, much like Eskimo [illegible] electrically heated flying suits.

You know the latest Lindbergh achievement crossing the continent in 14 hours and 45 minutes flying over 10,000 feet up.

* * *

LINDBERGH warned of storms [illegible] We expect to fly [illegible] enough [illegible] the storms [illegible] no storms [illegible] the ocean waves and [illegible] deep [illegible] direction [illegible] a few miles a gentle breeze caused by the earth's movement moves all ways toward the east.

Flying only 10,000 feet up Lindbergh could not see the towns over which he passed. This interests army officers of the Victorian era who think anti-aircraft or coast defense guns will be useful in future wars.

* * *

ZARO AGHA of Constantinople is 1[illegible]6 years old his grandson 100 years.

The American Anti Alcohol society will exhibit them here as "proof of the benefit to be derived from total abstinence."

Everything that encourages temperance is useful. The Anti Alcohol society might exhibit with its Turkish gentleman who obeys the laws of Mohammed one of the 900 year old turtles from the Galapagos Island which also drink no alcohol.

It isn't what you drink or don't drink but what you amount to that counts.

As Francis Bacon says, "A man is what he knows."

Zaro Agha and the Galapagos turtle don't know much.

* * *

YESTERDAY was celebrated the anniversary of the founding of Rome. You know the story which sounds improbable now. Two little brothers Romulus and Remus. Their mother was the vestal virgin Silvia, their father Mars god of war. In a wooden trough they were set afloat on the River Tiber and landed in Rome in a marsh under a fig tree long worshiped as sacred.

A female wolf kindly nursed the two boys. A woodpecker fed them. Then a shepherd's wife took care of them.

Later Romulus killed his brother Remus in a quarrel after they founded Rome.

The whole yarn was borrowed from the Greeks by the Romans just as according to antiquarians, much of a religion professed by many was borrowed from the Babylonians.

* * *

ROME developed a wonderful people ancient Romans and modern Italians, one of the greatest races in the world, as powerful now as they were 2,000 years ago.

Long Rome has stood on those seven hills actually seven ridges made of volcanic ash that millions of years ago filled an inland lake. Powerful men have ruled there none more interesting than Mussolini none perhaps more powerful in will.

* * *

GEORGE BERNARD SHAW says: The talking film will kill the theater. The brilliant old gentleman is mistaken. Newspapers did not kill well printed books, talking machines did not destroy interest in grand opera or in the singers as individuals.

Human beings want to meet each other. Shadows even when they talk cannot satisfy them completely.

The men in Plato's slave cave looking at reflections on the walls were not satisfied with those reflections after they heard about realities in the outside world.

FUEL COSTS CUT BY PROPER INSULATION

Older Houses Show Need of Added Protection, Two Basic Types Offered.

Among older houses poor or no insulation is a frequent cause of cold interiors and high fuel bills.

Many of the older residences were constructed only with tarred paper as an insulator—decidedly a mistake in the light of modern building practice.

Basically there are two ways to insulate a house—with a rigid material or with a flexible material. By rigid material is meant tarred paper, wall board or similar product. A flexible material may be a blanket of fluffy wool or a fine powder-like substance that is poured between the 2x4's comprising the side supports of the wall.

Dead Air an Insulator

Dead air spaces made a splendid insulating material and many products are designed with dead air cells to give this protection. Most of the rigid insulating materials are built with dead air cells.

When the walls have been properly protected by insulating material, it is really sealed against the entrance of cold air and the exit of heat. Then you have 100 per cent insulation and can keep your fuel bills down to a minimum.

First intimation of a mobilization order was given by Lieutenant Fisher, in Columbus, who notified Lieutenant H C Taylor that the local guard would probably be needed. Taylor issued mobilization orders.

Company B had just finished drill practice and remained in uniform, partially prepared for the emergency call

Communication with the adjutant general informed Captain Marks that both companies would be needed immediately

Arrangements were made with the Co., D & M Electric Co. to transport the guards to Columbus. City buses were also placed at the disposal of the troops, and local railroad officials made arrangements to facilitate transportation [illegible] by keeping in touch with the two company captains.

The mobilization order was the first [illegible] since the death of United States Senator Frank B. Willis, which [illegible] the use of [illegible] Company [illegible] [illegible] mobilization [illegible]

BATTLING FLAMES

Columbus firemen battled for hours in what appeared to be a futile endeavor to subdue flames that swept the cell block and plants at Ohio penitentiary. Here are firemen pouring water into the cell block in which the fire is believed to have started and in which a large number of the convicts lost their lives when they were trapped on the sixth tier. Death also claimed a number of rescue workers in this block

Eastern Star Chapter To Plant Tree At City Park

Ceremony Will Be In Honor of Mrs. Caroline Wilson, First Past Matron of Group, Arrangements Made by Dr. F. R. Mann, Chairman of Marion Commission.

Past Matrons of Lydia Chapter No. 83, Order of the Eastern Star will honor the memory of their first past matron, Mrs. Caroline Wilson by planting a tree in her memory Friday afternoon in McKinley park. Arrangements for the planting of the tree were made by Dr. F. R. Mann, president of the park board and chairman of the committee in charge of the beautification program of clean up week and is a part of the city beautification activities. A committee composed of Miss Sara Cooper, chairman, Mrs. J. F. Rush and Mrs. W. I. Titus of the chapter assisted in plans for the ceremony which will be held at 3 o'clock. The tree will be either a cut leaf birch or beech.

Members of the chapter and others interested in the ceremony are requested to meet at the park at 3 o'clock. It is expected that the latter members and older members together with the chapter officers will conduct the service. The chapter has a roster of about 25 past matrons. Mrs. Mildred Hunter is present reigning past matron and officers of the organization are Mrs. Fred [illegible] Carhart [illegible] Mrs. Clara [illegible] president; Ms. Jessie Conley, vice president; Mrs. Frances Layton, secretary and treasurer. The late John O. Anthony was the first past patron of the organization.

RESTAURANTS HERE WILL BE INSPECTED

Health Commissioner To Grade Cleanliness and Sterility of Equipment.

Initial step looking towards periodic inspection and probable grading of Marion restaurants on a basis of cleanliness and sterility of equipment was taken yesterday by Dr. J. T. Grider, milk and food inspector for the health district.

Random samples of silverware and chinaware were taken from a number of Marion restaurants for tests.

The initial test was made by Dr. Grider yesterday on suggestion of Dr. N. Sifritt, district health commissioner.

A cup, fork or any article used in a restaurant or hotel which touches the lips of customers may have a heavy bacteria count despite the fact it is apparently clean,' Doctor Sifritt said today.

"The examinations, which have never been made before, will be made in a spirit of helpfulness to both the restaurant owner and the customer," he said.

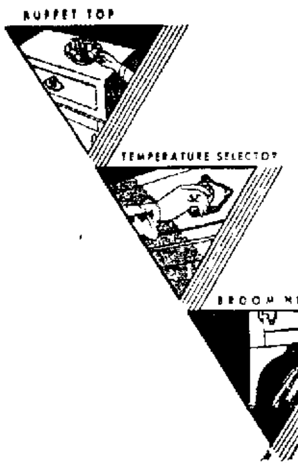
WESTINGHOUSE



THE REFRIGERATOR THAT COMBINES ALL 3 OF THESE ESSENTIAL REFINEMENTS..

Made possible by the Compact Efficient Freezing Mechanism developed by Westinghouse Engineers

Have you seen the New Westinghouse Refrigerator? If not, you really ought to take the time to look at it. It is worth—if you are the least bit interested in modern kitchen equipment—an hour of your time.

The low, flat Buffet-Top is so necessary when you are taking dishes out or putting them away. Without it, you must either search about for a place to lay them down or else handle them one at a time. And the Broom High Legs to make underneath sweeping easy! And the Temperature-Selector to give you absolutely flexible control of freezing speed. You couldn't do without any of these refinements . . and you can't find them *all* in any other machine.

For Westinghouse has a freezing mechanism which permits the building of a refrigerator that has these requisite features. This mechanism [illegible] perfected after 12 years of patient research and experimentation [illegible] a complete innovation. It is decidedly fast freezing and is definitely more efficient and economical.
